

What do you do when you already make the best Whole-Home Electronic Air Cleaner? Make it better.

Easy to Open/Close:

New offset door latches guarantee proper door installation every time. Help prevent leakage.

Lowest Leakage:

Abundant foam seals and precision engineering prevent contaminated air from entering the system.

Peace of Mind:

New "filtering" light assures your customers that their air cleaner is working. Reduces unnecessary service call-backs.

Rated #1:

By a leading consumer ratings magazine two years running.

Always the best performing air cleaner you can offer your customers.

The Aprilaire Whole-Home Electronic Air Cleaner:

- Is the only air cleaner to effectively trap virus-sized particles
- Permanently traps pollen, mold and spore particles at rates of up to 99%
- Operates invisibly and silently—unlike portables and other competitive solutions

Healthier for your customers—and your business.

According to a recent Accenture survey, 83% of consumers are already interested in improving their overall health:

- Elevate your value in the eyes of your customers—introduce them to the immediate benefits of an Aprilaire Whole-Home Electronic Air Cleaner
- Grow your business through increased accessory sales
- Generate revenue through additional replacement and service business

Put the Aprilaire Whole-Home Electronic Air Cleaner to work for you and your customers. Contact your Aprilaire distributor for more information or visit us online at www.aprilairecontractor.com.
